

## Product Efficacy and Features

Melanin care, a whitening functional serum that can manage skin with no irritation even for sensitive skin. Cleaner and clearer skin care by containing raw materials certified for whitening and functionality.

At first, it is viscous, but it is quickly absorbed and delivers active ingredients to the skin without stickiness for more effective care, and moisture, not oil, can be formed to express the glow of pretty glass.

## cell line proliferation activity of EGF

Up to 12 hours, all showed similar growth rates, but after 72 hours, the cell count of EGF was high.

As a result, it can be seen that EGF is active in cell proliferation in the skin, helping to manage complex skin care.

## main ingredient

### Arbutin

Natural whitening ingredients extracted from plants as whitening ingredients by the Ministry of Food and Drug Safety prevent the activation of melanocytes that cause pigmentation on the skin to create clear and bright skin.

### EGF

It combines with receptors on the surface of the skin to promote the production of new cells and solves the root cause of skin cells. It has whitening, elasticity, wrinkle improvement, and moisturizing effects.

### Traneximic Acid

It is an internationally recognized skin whitening ingredient that inhibits melanin synthesis and inflammatory medium synthesis, enabling strong anti-inflammatory blemishes care.

### ginseng stem cells

It has no cytotoxicity, excellent skin cell activity, and contains useful nutritional ingredients including saponin, making it excellent for antioxidant, anti-aging, and anti-inflammatory effects.

## Erythema and Pigmentation Reduction Effect of Traneximic Acid

Clinical photographs from 0 to 12 weeks after application of topical TA

A gradual decrease in pigmentation and erythema was found in 22 of 23 patients after 12 weeks.

Traneximic acid was found to help reduce erythema and pigmentation in the skin as a gradual decrease in pigmentation and erythema was found in 22 out of 23 patients after 12 weeks.

Recommended skin type: It is recommended for all skin types, but I highly recommend oily and complex skin.

※ It can be used at night or during the day, but since arbutin is vulnerable to light, it is recommended to use sunscreen during the day.

a slightly viscous, transparent formulation

## How to use

Pump an appropriate amount with the dropper cap and absorb it in the center of your worries.

# PRODUCT : Skin N Brigem Intensive Lifting Serum 90 ml - # Elastic care # Resilient skin # a honey glow # moisturizing serum

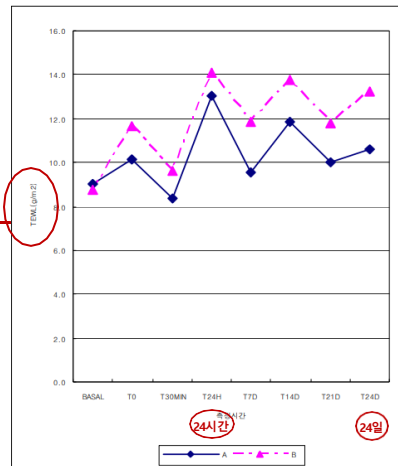

## Product Efficacy and Features

Although it is an elastic high-functioning serum, it is not sticky and contains ingredients that have been certified for improving wrinkles and rich nutrition of dry and rough skin

Although it is viscous, it permeates the skin quickly and delivers the active ingredients directly into the skin, allowing more effective care. When used on the skin, it has a honey glow that makes the skin look good, making the skin look healthy and lively visually

Effect of Ceramide NP on the Improvement of Skin Barrier

Ceramide :

TEWL, value means skin barrier function, and comparing the amount of percutaneous water loss over 24 days, there seems to be no significant change in the control area from 24 hours to 24 days, but the amount of percutaneous water evaporation decreased in the area where ceramides were applied.

## main ingredient

### Adenosine

The Ministry of Food and Drug Safety's notice helps protein DNA synthesis and fibroblast proliferation, promotes collagen synthesis, and is a protein molecule with anti-inflammatory properties in the body that are excellent in stability and durability, and is resistant to light and heat

### EGF

It combines with receptors on the surface of the skin to promote the production of new cells and solves the root cause of skin cells. It has whitening, elasticity, wrinkle improvement, and moisturizing effects

### ceramide NP

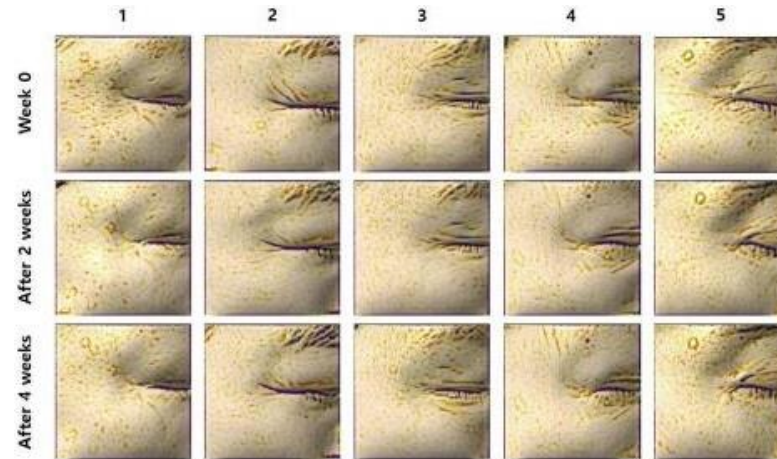

A key role in strengthening the skin's lipid barrier and forming a skin barrier against the external environment to help dry skin stay moist for a long time

### sodium hyaluronate

As one of the natural moisturizing ingredients, it has a 6,000-fold moisture content and attracts moisture in the air to protect the skin's moisture, and fills in between collagen and elastin to help prevent skin from being rough

## Adenosine's Wrinkle Improvement Effect

After using three types of test products (skin, lotion, cream) together, the result of measuring wrinkles around the eyes,

It was confirmed that adenosine was effective in improving wrinkles as wrinkles around the eyes decreased by 6.984% after 2 weeks of product use and decreased by 10.609% after 4 weeks.

Recommended skin type: It can be used for all skin types, but it is recommended for combination skin and severe dry skin

a viscous, translucent formulation

How to use  
Pump an appropriate amount with the dropper cap and absorb it in the center of your worries.
