I. Company Introduction

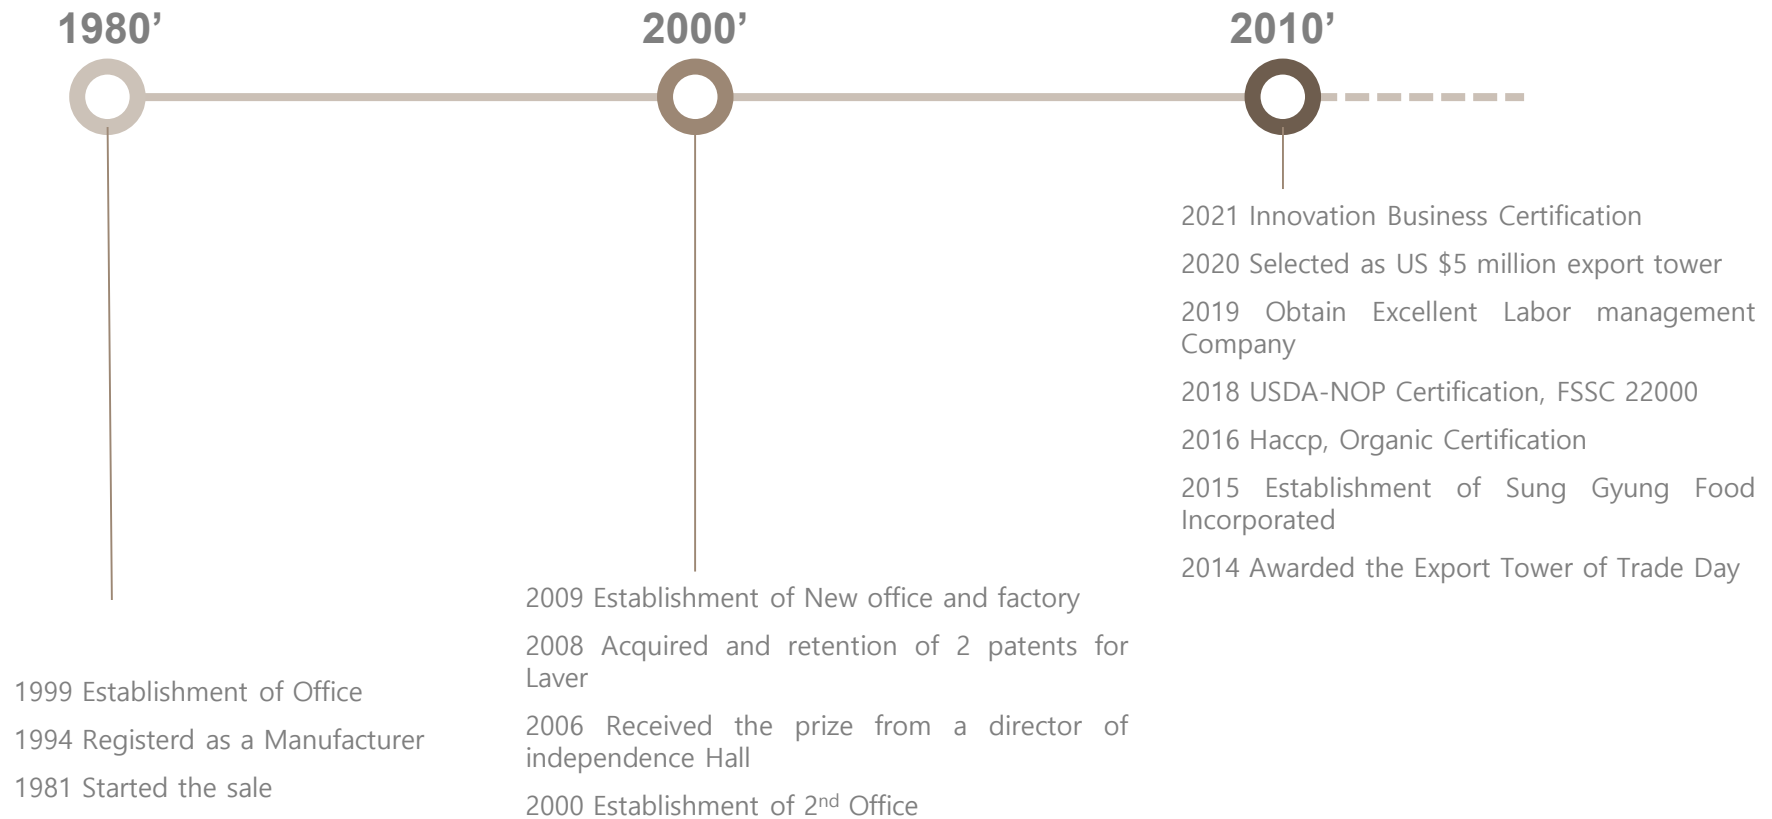

“Jidopyo Sung Gyung Laver” is derived from Sung (成(to accomplish)) and Gyung (京(capital city)), which means to become a capital city (首都) of laver with a belief to produce products that captures the consumer’s mind

Ranks first in MS in the super channel laver category, we are operating through a management system equipped with the latest sanitary facilities to produce clean and safe products

All raw materials are constantly striving to produce high-quality products through strict inspection and management to serve our customers

I. Company Introduction

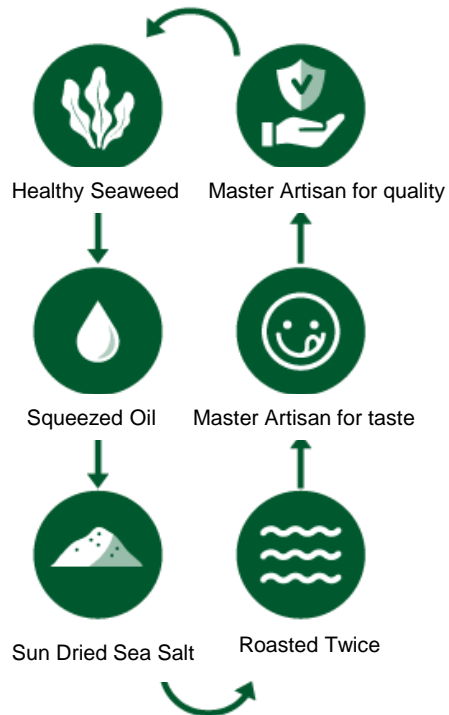

History

II. Introduction of Sung Gyung seaweed

Special Features for SG Seaweed

쟁이가 만들어 맛있는
성경식품 쟁이로드

Our SG seaweed is a different compared with normal seaweed

Korean
Healthy Seaweed

Freshly Squeezed
Perilla Oil

Sun Dried Sea Salt
From New Zealand

Our experts select high quality seaweed through strict selection criteria, and use sun dried sea salt from New Zealand with freshly squeezed perilla oil.

II. Introduction of Sung Gyung seaweed

Special SG Seaweed — Selected premium seaweed through strict standard by experts

II. Introduction of Sung Gyung seaweed

Special SG Seaweed– Freshly Squeezed Oil

- **Use of fresh perilla oil extracted according to the daily production schedule**

High quality perilla oil is squeezed by hygienic production . Daily produced oils are used to maximize the flavor of the seaweed.

- **Best combination of oil owned by SG secrets receipt**

With the perfect mixture of oil, our seaweed is rich in taste and flavor compared to other companies

II. Introduction of Sung Gyung seaweed

Special SG Seaweed– Use of sea salt from uncontaminated New Zealand sea

- New Zealand has the best environmental conditions for producing high quality sea salt

지정학적 요인

세계에서 가장 높은 위도
(남위 42도)

기상학적 요인

건조한 바람과
연간 580mm의 낮은 강우

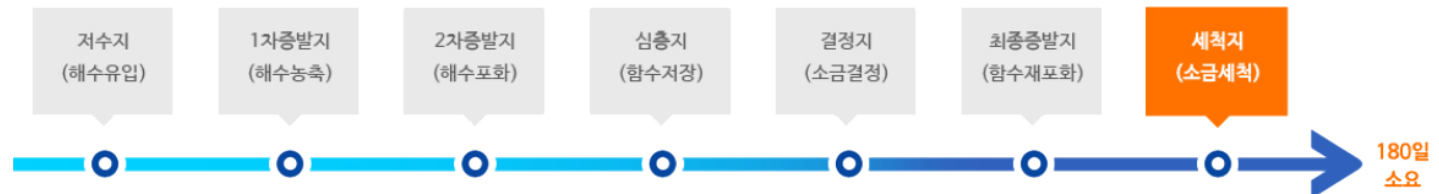

환경적 요인
